INTERREGIONAL PLANNING UPDATE

Jeffrey Goldberg, PE
Senior Engineer, Transmission Planning
September 13, 2024

Coordinated System Plan Study Update

- After discussions with stakeholders at the March 25, 2024 Interregional Planning Stakeholder Advisory Committee (IPSAC), the MISO-PJM Joint RTO Planning Committee decided not to initiate a Coordinated System Plan (CSP) study in 2024
- The CSP determination was based on the following rationale:
 - Interregional Market Efficiency Project (IMEP):
 - No interregional constraints were identified in the respective regional processes
 - Targeted Market Efficiency Project (TMEP):
 - RTOs believed it prudent to assess the impact of planned upgrades and congestion persistence with an additional year of market data
 - Interregional Reliability Projects; Interregional Public Policy Projects; Ad-Hoc studies:
 - No drivers were identified to warrant a study at this time
- The next MISO-PJM IPSAC meeting scheduled for November 22, 2024
