Attachment Y screens are only applicable to a FERC jurisdictional interconnection (refer to section 1.4). If an Attachment Y is received for an interconnection that is determined to be non-FERC jurisdictional, the Tariff processes cannot be used for interconnecting the proposed facilities, and the Tariff screens process does not apply. For non-jurisdictional requests, PJM will study for impacts to the Transmission System and, if there are no impacts, issue a wholesale market participation agreement within 90 days of the determination of a valid Interconnection Request. If it is determined that there are impacts to the Transmission System, the request will be processed per Section 5.4 of this Manual 14G. It is up to the customer to meet the non-FERC entity’s interconnection requirements.
