

Data Management Subcommittee – PDQ Special

WebEx/Conference Call

August 22, 2018

13:00 – 14:00 EDT

Kickoff Meeting

- Introductions and roll call conducted in room and for those attending via WebEx/Teleconference.
- Ms. Suzie Fahr walked through a presentation that spanned from PDQTF to SIS to Data Management Subcommittee. Ms. Fahr outlined purpose of this workgroup to address establishing realistic data quality thresholds, future vision for the group, and associated timelines.
- Mr. Shaun Murphy walked through a presentation that has been shared at OC meetings. Mr. Carey Schneider (AEP) requested a demo of DataNxt and Mr. Murphy affirmed that would be possible. Mr. Drew Trump (PPL) asked about PMU installation guidance, and Mr. Murphy's upcoming presentations to Planning Committee and TOAC will address development/installation of PMUs in new equipment.
- Mr. Bob Barth (DEOK) asked if TO outreach is completed as yet. Mr. Murphy advised they met with First Energy beginning of year, and that PPL was next. The plan is to meet with 3-4 TOs per year.
- Mr. Greg Stoppelworth (DEOK) commented on phasor line outages causing the reporting of bad data quality results. This is not a realistic representation of data quality. Mr. Murphy advised he is happy to collect information like this and for TOs to share/communicate these types of challenges among themselves in hope of resolution.
- Ms. Fahr shared future agenda topics for upcoming 9/19/2018 meeting. All were encouraged to attend in person; however, WebEx Teleconference information will be available for those who cannot attend in person.
