

Winter Emergency Procedure Drill review

DRS

November 16, 2018

- Conducted Tuesday, November 6, 2018 from 0730 through 1430 EPT
- Simulates all emergency procedure actions (deployment and release) with indication if it triggers Performance Assessment Interval (PAI)
 - HLV Warning (Heavy Load Voltage Schedule Warning)
 - Load Management deployment
 - Deploy all Resources
 - Manual Load Dump
 - Etc.

Please review EP drill so you are aware what this may look like in the future.

The screenshot shows the PJM Emergency Procedures dashboard. At the top, there are navigation tabs for 'Postings', 'Message Definitions', 'Message Priorities', 'PAI Guidance Matrix', 'PAI Active Guidance', 'Regions', and 'Emergency Bid Form'. Below these are search filters for 'Effective From' (05/14/2018), 'Effective To' (05/15/2018), 'Regions', and 'Message Types' (set to 'PJM Drill Only'). A callout box labeled 'Filter for Drill Only' points to the 'PJM Drill Only' dropdown menu.

The main content area displays a table of emergency messages. The table has columns for History, Msg ID, Priority, Message Type, Effective Start Time, Regions, Emergency Message, and Effective End Time. The messages listed are all drills issued on 05.14.2018.

History	Msg ID	Priority	Message Type	Effective Start Time	Regions	Emergency Message	Effective End Time
	102073	Warning	DRILL - HLV Warning	05.14.2018 07:28	PJM-RTO	Drill A HLV Warning (Heavy Load Voltage Schedule Warning) has been issued. Additional Comments: This is for PJM's 2018 Summer Emergency Procedures Drill	05.14.2018 14:32

- Become familiar with steps of the process and how it is represented on EP
- Acknowledge ALL Call request for Load Management Deployment
- Understand EP message posting for Load management event

Attempts	CSPs	Outcome
1	20	Verified
2	7	Verified
>=3	2	Verified
>=3	1	Incomplete (VM, Busy, etc.)

For Actual Load Management Event, DR Hub Web service is primary notification channel (PJM will communicate which registration needs to respond and when)

- PJM will reach out to CSPs regarding ALL Call Drill performance over next 2 weeks
 - Great - Verified within 2 calls
 - Not verified until at least 3 calls or never verified
 - Review ALL Call list status
 - Remove CSP from list (no longer in the market)
 - Review ALL Call process – ensure there is no confusion
 - CSP internal process enhancements to verify within 2 calls.
