1:00 pm – 4:00 pm EPT

Administration (1:00 - 1:15)

1. Welcome, Announcements and Anti-trust and Code of Conduct announcement
 - A. WebEx report was used for attendance.
 - B. Minutes from the 5/9/2022 meeting were approved.
 - C. Request for any additional agenda items complete, none noted
 - D. There were no topics about DR related activity in other stakeholder groups.

(1:15 – 1:30) Review draft Problem Statement/Issue Charge for “Alternative DR/PRD Compliance Construct for Weather Sensitive Load”

2. Sharon Midgley (Exelon) provided a review of a draft Issue Charge and Problem Statement related to a potential alternative DR/PRD Compliance construct for weather sensitive load in the capacity market. It was clarified that this problem statement pertained to both Price Responsive Demand and all of Demand Response including residential, C&I, potentially more methods than Firm Service Level, etc. Exelon plans to present the Problem Statement and Issue Charge at the next MIC scheduled for June 8, 2022.

(1:30 – 2:00) Critical Gas Infrastructure participation as DR in PJM markets

3. Jack O’Neill discussed proposed changes to the definition of Critical Natural Gas Infrastructure. It was confirmed that if a load was backed by a generator, it would not be considered Critical Gas Infrastructure. In addition, if a part of the load at a facility was not Critical Gas Infrastructure, that load would not be excluded from participation. Next steps are to bring draft manual language for discussion at the next DRS meeting.

Future Agenda Items

Ken Schisler, CPower, indicated he would bring a new Problem Statement for review at the next DRS meeting - Statistical Sampling for Residential and Small Commercial Customers.
