

Proposed Clean-Up, Clarification and Corrections to Governing Documents

Explanation of Proposed Definitional Provisions

Vicki Karandrikas

Assistant General Counsel, Office of General Counsel

Governing Document Enhancement & Clarification Subcommittee

January 25, 2024

Project Identifier (Row 30)

Proposed Definition

“Project Identifier” shall mean, **when an Application from a Project Developer or an Eligible Customer results in a valid New Service Request, in accordance with Tariff, Part VII, Subpart C, section 306 [or Part VIII, Subpart B, section 403], the assigned Project Identifier to such request as confirmed by Transmission Provider. For Project Developers and Eligible Customers, the Project Identifier will indicate the applicable Cycle, and will denote a number that represents the project within the Cycle. The Project Identifier is strictly for identification purposes, and does not indicate priority within a Cycle.**

Rationale:

Definition for “Project Identifier” added to the Tariff. It is a capitalized term but not defined. This language is also based on, and consistent with, the descriptions of Project Identifier contained in Part VII, section 315(A) and Part VIII, section 412(A) of the FERC approved Tariff, which states “[w]hen an Application from a Project Developer or an Eligible Customer results in a valid New Service Request, in accordance with Tariff, Part VII, Subpart C, section 306 [or Part VIII, Subpart B, section 403], Transmission Provider shall confirm the assigned Project Identifier to such request. For Project Developers and Eligible Customers, the Project Identifier will indicate the applicable Cycle, and will denote a number that represents the project within the Cycle. The Project Identifier is strictly for identification purposes, and does not indicate priority within a Cycle.”

Request Number (Row 31)

Proposed Definition

“Request Number” shall mean, **when an Application from an Upgrade Customer results in a valid Upgrade Request, in accordance with Tariff, Part VII, section 306 [or Part VIII, Subpart H, section 435], the assigned Request Number to such request as confirmed by Transmission Owner. The Request Number will indicate the serial position and priority.**

Rationale:

Definition for “Request Number” added to the Tariff. This is based on, and consistent with the description of Request Number contained in Part VII, section 315(B) and Part VIII, section 412(B) of the FERC approved Tariff, which states “[w]hen an Application from an Upgrade Customer results in a valid Upgrade Request, in accordance with Tariff, Part VII, section 306 [or Part VIII, Subpart H, section 435], Transmission Provider shall confirm the assigned Request Number to such request. The Request Number will indicate the serial position and priority.”

Surplus Service Request Number (Row 34)

Proposed Definition

“Surplus Service Request Number” shall mean, **when an Application from a Surplus Interconnection Service Customer results in a valid Surplus Interconnection Service Request, in accordance with Tariff, Part VIII, Subpart E, section 414, the assigned Surplus Service Request Number to such request as confirmed by Transmission Provider. The Request Number will indicate the serial position and priority.**

Rationale:

Definition for “Surplus Service Request Number” added to the Tariff. It is a capitalized term but not defined. This language is based on, and is consistent with the description of Request Number contained in Part VIII, section 412(C) of the FERC approved Tariff, which states: “[w]hen an Application from a Surplus Interconnection Service Customer results in a valid Surplus Interconnection Service Request, in accordance with Tariff, Part VIII, Subpart E, section 414, Transmission Provider shall confirm the assigned Surplus Service Request Number to such request. The Request Number will indicate the serial position and priority.”

Surplus Interconnection Study Agreement (Row 45)

Proposed Definition

“Surplus Interconnection Study Agreement” shall mean the **form of the Surplus Interconnection Study Agreement set forth in Tariff, Part IX, Subpart I.**

Rationale:

Definition of Surplus Interconnection Study added to reflect the addition of the pro forma Surplus Interconnect Study Agreement that is now part of Tariff, Part IX. This definition simply references the applicable **form of agreement under Part IX of the FERC-approved Tariff entitled, “Form of Surplus Interconnection Study Agreement.”**
