

**Resource Adequacy Analysis Subcommittee  
PJM Conference and Training Center/ WebEx  
July 12, 2021  
11:00 a.m. – 12:00 a.m. EPT**

## Administration

1. Mr. Falin opened the meeting and reviewed the agenda. The meeting minutes from the October 2, 2020 meeting were approved and will be posted as final.

## 2021 Load Model Time Period Analysis

2. Mr. Rocha-Garrido reviewed detailed results of analysis performed by PJM staff regarding the selection of a load model time period for both PJM and the World regions. The analysis focused on the 2025/2026 Delivery Year and followed the procedure approved by the Planning Committee at its July, 2009 meeting.

PJM recommended a 13 year load model based on the years 2001-2013 for use in the 2021 RRS Base Case. PJM also recommended that the World peak be switched to a different July week so that PJM and World peak on the same month but not on the same week.
