

Resource Adequacy Analysis Subcommittee
WebEx/Conference Call
July 7, 2023
9:00 a.m. – 10:00 a.m. EPT

Administration

Mr. Manno opened the meeting and reviewed the agenda. The meeting minutes from the May 12, 2023 meeting were approved and will be posted as final.

2023 Load Model Time Period Assessment

Mr. Rocha Garrido reviewed results of analysis performed by PJM staff regarding the selection of a load model time period for both PJM and the World regions. PJM recommended a 7 year (2013-2019) load model for the 2023 RRS Base Case and that the World peak be switched to a different July week so that PJM and World peak on the same month but not on the same week.
