

Periodic Survey: Min. Operating Temperature

Vince Stefanowicz - PJM
Sr. Lead Engineer, Generation
System Operations Subcommittee
March 9, 2020

Generating Facility Minimum Operating Temperature

- Based on joint NERC/FERC report on MISO cold weather event in January 2018
- Focused on specific generating units limitations, such as ambient temperatures
- Survey initiated in eDART on 12/1/19
 - Independent of Seasonal Fuel & Emissions Survey
- **Open until 4/1/20**
