

## Potential Additional Issues Relating to the Implementation of Dynamic Line Ratings

### Issue Source

PJM at the request of stakeholders

### Issue Content

Potential additional issues relating to the implementation of dynamic line ratings (DLR).

### Key Work Activities and Scope

In light of two recent FERC issuances,<sup>1</sup> this work effort will afford stakeholders an opportunity to engage with one another and PJM on additional topics relating to DLR implementation:

- a. Additional considerations regarding notice of an intent to implement DLR.
- b. Impact (if any) of DLR implementation to ARR/FTR markets.
- c. DLR impacts, if any, to the Seasonal Ratings utilized within PJM Planning processes.

### Expected Deliverables

1. Stakeholder education
  - a. Education already provided: the March 30, 2021 [Operating Committee Special Session on DYNAMIC RATING Education](#).
    - <https://pjm.com/-/Dynamic Rating Impacts>
    - <https://pjm.com/-/Dynamic Rating Market Efficiency>
    - <https://pjm.com/-/Emergent Technologies Modeling Overview>
    - <https://pjm.com/-/Dynamic Line Ratings>
  - b. Additional education as needed

### Out of Scope

Modifications to the Operating Agreement, Tariff or Manuals that would infringe upon the terms of the Consolidated Transmission Owners Agreement. This would include requiring Transmission Owners to install and/or implement DLR, modifying the Transmission Owners' authority to determine transmission line rating methodologies, and calculate transmission line ratings.

Compliance with Order No. 881. To avoid any doubt, this initiative is not in furtherance of compliance efforts with Order No. 881.
