21	Add formula details to proposals (this will be handled once we know which options are moving forward) / Try to predict what the effect of each package will be.	In Progress
54	[From May 20 meeting]: What is the difference between DA and RT price and volume of virtual transactions? Possible clarifying comment: Is there a relationship between Day Ahead and Realtime price spread and the volume of virtual transactions.	In Progress
57	Provide education on PJM/ConEd wheel. Education should include guiding documents, who is responsible, etc.	In Progress
58	Provide education on the model (price volatility constraint) associated with IT SCED change (or is it due to operator constraint). If the latter, is it coincident with having better model and better data?	Not Started
