

Small Generation Deposit Requirements

(<2MW energy & up to 10kW inverter)

IPSTF

February 24, 2012

- Changes previously made to 1) §112A.1 and 2) §112B.1 deposit requirements (<2MW energy generator and up to 10kW inverter)
- Changes proposed to be consistent with other small generation deposit changes as PJM does not have any history for these very small projects
- Questions raised at MC regarding the deposit values

Proposals for interconnection of <2MW energy projects

- IPSTF proposed \$10,000, \$12,000, and \$15,000 for <2MW energy projects
- New proposal \$2,000, \$3,000, & \$5,000?

Proposals for interconnection of up 10 kW inverter projects

- IPSTF proposed \$5,000 for up to 10kW inverter projects
- New proposal \$500?
