

212.7 Interconnection Service Agreement and Interconnection Construction Service Agreement execution by Interconnected Transmission Owner

Following execution of the Interconnection Service Agreement and/or Interconnection Construction Service Agreement (as used in this section, "Agreement(s)") by the Interconnection Customer the Transmission Provider shall forward the Agreement(s) to the Interconnected Transmission Owner named as party to the Agreement(s). The Interconnected Transmission Owner shall execute and return the Agreement(s) to the Transmission Provider no later than 15 business days following the date of receipt of Agreement(s) from the Transmission Provider, or, alternatively, request: (i) dispute resolution under Section 12 of the Tariff; or (ii) that the Agreement(s) be filed unexecuted with the Commission. However, in the event the Interconnection Customer has made changes to the Agreement(s) tendered to the Interconnection Customer by the Transmission Provider which were not previously reviewed and approved by a representative of the Interconnected Transmission Owner, the requirement for the Interconnected Transmission Owner to return the document in the time specified shall not be applicable and the parties to the Agreement(s) shall use due diligence to execute the Agreement(s) as expeditiously as possible. In the event the Interconnected Transmission Owner does not: (i) execute and return the Agreement(s) in the time specified above; (ii) request dispute resolution under Section 12 of the Tariff; or (iii) request that the Agreement(s) be filed unexecuted, the Transmission Provider shall advise the Interconnection Customer of the status of the execution of the Agreement(s). The Interconnection Customer may then request: (i) dispute resolution under Section 12 of the Tariff; or (ii) that the Agreement(s) be filed unexecuted with the Commission. In all cases, the Interconnection Customer, Interconnected Transmission Owner, and Transmission Provider may mutually agree to extend the time in which Interconnected Transmission Owner must execute and return the Agreement(s).

213.7 Upgrade Construction Service Agreement Execution by Transmission Owner

Following execution of the Upgrade Construction Service Agreement (as used in this section, "Agreement") by New Service Customer, the Transmission Provider shall forward the Agreement to the Interconnected Transmission Owner named as party to the Agreement. The Transmission Owner shall execute and return the Agreement to the Transmission Provider no later than 15 business days following the date of receipt of Agreement(s) from the Transmission Provider, or, alternatively, request: (i) dispute resolution under Section 12 of the Tariff; or (ii) that the Agreement(s) be filed unexecuted with the Commission. However, in the event the New Service Customer has made changes to the Agreement tendered to it by the Transmission Provider which were not previously reviewed and approved by a representative of the Transmission Owner, the requirement for the Transmission Owner to return the document in the time specified shall not be applicable and the parties to the Agreement shall use due diligence to execute the Agreement as expeditiously as possible. In the event the Transmission Owner does not: (i) execute and return the Agreement in the time specified above; (ii) request dispute resolution under Section 12 of the Tariff; or (iii) request that such Agreement be filed unexecuted, the Transmission Provider shall advise the New Service Customer of the status of the execution of the Agreement. The New Service Customer may then request: (i) dispute resolution under Section 12 of the Tariff; or (ii) that the Agreement be filed unexecuted with the Commission. In all cases, the New Service Customer, Transmission Owner, and Transmission Provider may mutually agree to extend the time in which Transmission Owner must execute and return the Agreement.
