Subject: RPPTF Comments from Atlantic Grid Development

Fran, as requested; please review the draft Atlantic Grid Development (AGD) comments for discussion at the upcoming RPPTF meeting.

- **Section 4.1.0 Milestone Dates:** As AGD has noted in comments submitted 12/11/13; we continue to request that milestone dates are extended if; are the result of the failure of any governmental authority to properly consider and act upon required permits or other approvals.
- **Section 4.3.1 Project Modification:** AGD remains committed to meeting any and all Project Modifications that are required by Good Utility Practice *but not beyond*; and request this to be included in the language.
- **Section 7.6 Remedies Cumulative:** In AGD's prior comments we explained our need to add that a drawing under the Designated Entity Letter of Credit would be an exclusive remedy. Please explain why this has not been added to date.
- **Additionally and importantly; in an attempt not to be duplicative** - AGD strongly supports all of LS comments recently submitted on Financing party protections as well as Section 8 Early Termination by Transmission Provider that have the potential to cause financing impediments and unnecessary barriers for non-incumbents.

Please let me know if you have any comments or questions on any of the above prior to the meeting so we can all be properly prepared.

Thanks & TGIF,

Pati
