

Changes found in the February 2020 DR Hub XSD release are shown below.

Note: All users should (at a minimum) be at the December 2019 release level by Feb 29, 2020. Items included in this release will not be available to implementations using a prior release.

Prior to updating or replacing any XSD, backup existing versions of the current XSD and any in-house changes you've made prior to this release.

It is advisable to perform a file comparison between the XSD you are using today and the XSD you are migrating to. s

Please verify all changes prior to implementation.

The December 2020 XSD changes are as follows:

```
<!-- Added: The below elements have been added in support of testing PRD registered resources -->
```

```
<xs:complexType name="testPriceResponsiveDemandEventInfo">
  <xs:sequence>
    <xs:element name="eventId" type="xs:long" nillable="true"
minOccurs="0"/>
    <xs:element name="eventDate" type="xs:dateTime" minOccurs="0"/>
    <xs:element name="eventType"
type="tns:priceResponsiveDemandTestEventTypeEnum" minOccurs="0"/>
    <xs:element name="startTime" type="xs:time" minOccurs="0"/>
    <xs:element name="zone" type="xs:string" minOccurs="0"/>
    <xs:element name="status" type="tns:testEventStatusType"
nillable="true" minOccurs="0"/>
    <xs:element name="reTestRegistrations" type="tns:retestRegistrations"
minOccurs="0"/>
  </xs:sequence>
</xs:complexType>
```

```
<xs:simpleType name="priceResponsiveDemandTestEventTypeEnum">
  <xs:restriction base="xs:string">
    <xs:enumeration value="TEST_PRICE_RESPONSIVE_DEMAND_SUMMARY"/>
    <xs:enumeration value="RETEST_PRICE_RESPONSIVE_DEMAND_SUMMARY"/>
  </xs:restriction>
</xs:simpleType>
```

```
<!-- Replaced: The below element loadMangementTestEventStatusType has been replaced by testEventStatusType -->
```

```
<xs:simpleType name="loadMangementTestEventStatusType">
  <xs:restriction base="xs:string">
    <xs:enumeration value="CANCELED"/>
    <xs:enumeration value="CONFIRMED"/>
    <xs:enumeration value="SCHEDULED"/>
  </xs:restriction>
```

```
<!-- The below tns:testEventStatusType element Reference found within
testPriceResponsiveDemandEventInfo > -->

<xs:element name="status" type="tns:testEventStatusType" nillable="true"
minOccurs="0"/>

<xs:simpleType name="testEventStatusType">
  <xs:restriction base="xs:string">
    <xs:enumeration value="CANCELED"/>
    <xs:enumeration value="CONFIRMED"/>
    <xs:enumeration value="SCHEDULED"/>
  </xs:restriction>
</xs:simpleType>
</xs:simpleType>
```
