

# HARTIGEN

**Hartigen** is powering forward to challenge the status-quo of power market business processing by simplifying, automating, and integrating data flows, made possible by our patented (9817657B2) computing platform. Hartigen's flagship product, PowerOptix®, is a flexible, battle-tested transaction automation and settlement reporting platform that delivers measurable results for companies participating in ISO/RTO and Bilateral power markets. In PJM alone, PowerOptix® is trusted to manage over 450 sub-accounts and 42,000 MWs of generation.

PowerOptix® delivers the following capabilities:

- ISO/RTO Connectivity (downloads, submits, notifications)
- Shadow Settlement & Allocations
- Settlement & Position Data Cube
- Integration with Tableau & PowerBI
- Compliance / Dynamic Reporting
- Contract & Invoice Management (EMA/PPA invoices)
- Bid & Offer Automation
- Meter Data Management
- Load & Price Forecasting
- P&L & Volumetric Position Management
- Outage Management
- Energy Trading
- Tagging / Trade Automation
- Energy Accounting
- Customer Billing
- Unit Commitment Optimization
- Customer Portal
