

Subject Matter of the Exam

Content Outlines

The results of a Job Analysis have determined that there are two discrete sets of tasks performed by those who operate/dispatch in the PJM RTO system.

- A Generation Content Outline details the common tasks performed by those who dispatch generation resources and perform other generation-related real time duties.
- A Transmission Content Outline details the common tasks performed by those who operate transmission facilities and perform other transmission-related real time duties.

The content outlines serve as the basis for the certification exams. There are two examinations: the PJM Generation Dispatcher Certification Exam and the PJM Transmission Owner Operator Certification Exam. Each question on the exam must link to a particular task found on the relevant Content Outline.

Examination Title	Designation	Total Questions	Scored Questions	Cut Score*	Pass Mark
PJM Transmission Owner Operator	PT	110	90	67	74.44%
PJM Generation Dispatcher	PG	110	90	66	73.33%

*Cut Score indicates the minimum level of performance required on the exam.
