Re: *Commonwealth Edison Company*, Docket No. ER25-2129-000, Amendment to Tariff Filing to Clarify Transmission Rate Treatment of Asset Retirement Obligation Costs and Depreciation

Dear Secretary Reese:

Commonwealth Edison Company (“ComEd”) submits for filing a correction to certain metadata to the revised rate schedules reflecting updates to Attachment H-13A of the PJM Interconnection LLC Open Access Transmission Tariff (“PJM OATT”) submitted in Docket No. ER25-2129-000 on May 1, 2025¹. The transmittal requests a May 1, 2025 effective date, which was intended, but after the filing was submitted, it was discovered that the effective date was entered incorrectly in eTariff as 5/1/2023 instead of 5/1/2025. ComEd seeks a waiver of the Commission’s prior notice requirement to allow the filing to become effective on the requested effective date of May 1, 2025. Good cause exists to grant the waiver. The filing does not change rate levels and merely clarifies ComEd’s rate treatment of Asset Retirement Obligations (“AROs”), and thus customers benefit from the earliest possible effective date. No other party has intervened, and no harm will be caused by granting the waiver.

ComEd respectfully requests that the Commission accept the Tariff Filing as just, reasonable, and not unduly preferential under Section 205 of the Federal Power Act with the requested effective date of May 1, 2025.

Respectfully submitted,

/s/ Stan Berman
