The Honorable Debbie-Anne Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E., Room 1A
Washington, D.C. 20426-0001

Re: *PJM Interconnection, L.L.C., Docket No. ER26-3638-000*
Governing Document Enhancements and Clarifications of the Open Access
Transmission Tariff, Part VII, Part VIII, and Part IX, Regarding the Generation
Interconnection Process
SUPPLEMENTAL FILING

Dear Secretary Reese:

On August 27, 2026, PJM Interconnection, L.L.C. (“PJM”) submitted to the Federal Energy Regulatory Commission (“Commission”) a filing with proposed clerical and ministerial revisions to correct, clarify, and/or make consistent certain provisions of the PJM Open Access Transmission Tariff (“Tariff”), Part VII, Part VIII, and Part IX, pertaining to PJM’s reformed generation interconnection process.¹ On September 28, 2026, the Commission requested that PJM clarify the proposed revisions to Tariff, Part IX, Subpart C, WMPA, Specifications 1.0(c) (“WMPA, Specifications”). PJM hereby submits this requested clarification as described below.

In the August 27 Filing, PJM included a chart of the proposed Tariff revisions. In the August 27 Filing letter PJM explains that, in the process of preparing the filing, PJM identified several non-substantive, discrete, and ministerial edits that were needed to correct scrivener’s errors in the proposed revision chart that accompanied the August 27 Filing. PJM included the

¹ See *PJM Interconnection, L.L.C.*, Docket No. ER26-3638-000 (Aug. 27, 2026) (“August 27 Filing”).

table below in the filing letter to describe those changes to the proposed revision chart. Specifically, PJM stated, “As explained in Attachment C, the proposed revisions to Tariff, Part IX, Subpart C, WMPA, Specifications, section 1.0(c) are intended to mirror similar provisions in the pro forma Generation Interconnection Agreement (“GIA”) found in Tariff, Part IX, Subpart B, Specifications, section 1(c).” The clarification sought is whether the proposed instructions in the pro forma WMPA, which reflect the term “use,” should match the instructions in the pro forma GIA, which reflect the term “include.”

In describing the corrective edits to WMPA, Specifications, section 1(c) as mirroring similar provisions in the pro form GIA, PJM intended to reference the highlighted language in the chart below. The intent of this proposed change is to include the same information about Energy Storage Resources in both a GIA and a WMPA. The wording difference found in the pro forma WMPA’s instructions is minor and inconsequential, and no further edits are necessary.

Chart Number	Governing Document, Agreement, Attachment, Section, Title	Current Language	Proposed Revisions	Proposed Edits to Proposed Revisions ²
39.	Tariff, Part IX, Subpart C, WMPA, Specifications 1.0(c)	c. Size in megawatts of Generating Facility: Maximum Facility Output of _____ MW	c. Size in megawatts of Generating Facility: <u>{Use the following language for all resources}</u> Maximum Facility Output of _____ MW	Replacing the word “Maximum” with “Minimum” and removing “MW” to match the pro forma GIA.

² PJM has highlighted the chart to indicate the additional non-substantive, discrete, and ministerial edits for the Commission's ease of reference. The Commission has accepted other filings with similar highlighting, and PJM respectfully requests that the Commission do so here. *See PJM Interconnection, L.L.C.*, 192 FERC ¶ 61,057 (2025); *PJM Interconnection, L.L.C.*, Letter Order, Docket No. ER25-3145-000 (Sep. 18, 2025).

			<u>{Use the following language for Energy Storage Resources}</u> <u>Maximum load capacity of</u> <u>_____ MW</u> <u>MinimumMaximum State</u> <u>of Charge: _____</u> <u>MW; and</u> <u>Maximum State of Charge:</u> <u>_____ MW.</u>	
--	--	--	---	--

Accordingly, PJM respectfully requests that the Commission accept the proposed Tariff revisions, including the foregoing edits.

For the reasons detailed above, PJM respectfully requests that the Commission accept the proposed Tariff revisions, effective October 27, 2026, as originally requested.

Respectfully submitted,

/s/ Vasiliki Karandrikas
