Reference: Revisions to Peak Market Activity Calculation

On September 25, 2020, PJM Interconnection, L.L.C. (PJM) submitted revisions to the PJM Open Access Transmission Tariff (Tariff) to account for shifts in certain charges pursuant to local, state or federal law in the calculation of Peak Market Activity (PMA) and resulting credit responsibilities.<sup>1</sup> You state that the proposed Tariff revisions give PJM the authority to take into consideration in the PMA calculation any federal, state or local laws, regulations, orders, or other mandates that transfer the responsibility for payment of (or entitlement to receive credits for) certain PJM transaction charges (or credits) from one market participant to another party. You explain that making this revision will result in the avoidance of potentially higher than anticipated credit requirements for affected market participants.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation – East, under 18 C.F.R. § 375.307, your submittal is accepted for filing, effective December 1, 2020, as requested.

The filing was noticed on September 25, 2020, with comments, interventions, and protests due on or before October 16, 2020. Pursuant to Rule 214 (18 C.F.R. § 385.214), to the extent that any timely filed motions to intervene and any motion to intervene out-of-time were filed before the issuance date of this order, such interventions are granted. Granting late interventions at this stage of the proceeding will not disrupt the proceeding or place additional burdens on existing parties.
