and ER21-460

On May 27, 2021, PJM Interconnection, L.L.C. (PJM) filed revisions to the PJM Open Access Transmission Tariff (Tariff) and the Amended and Restated Operating Agreement of PJM (Operating Agreement)¹ to comply with the requirements of the Commission's April 27, 2021 order² in this proceeding. The April 2021 Order directed PJM to remove its proposed proviso included in its November 23, 2020 compliance filing that states: "provided, however, that nothing in this section limits a Market Seller's ability to simultaneously self-supply energy from one generation facility owned by such Market Seller to a different generation facility owned by the same Market Seller." The compliance filing satisfactorily complies with the requirements of the Commission's April 2021 Order. PJM requests that the compliance filing be accepted for filing effective September 23, 2020, consistent with the refund effective date established in the Commission's September 17, 2020 order³ issued in this proceeding and consistent with the Commission's April 2021 Order.
