

This study was performed by MISO
prior to ATSI integration with PJM.

MISO Project Number	J181	County	Lake
Point of Interconnection	ATSI Perry 345kV Substation	State	OH
Summer Net Output (MW)	16	Control Area	FE
Result	DPP	Fuel	Nuclear

Summer Off Peak

Monitored Element	Contingency	DF (%)	Rating (MVA)	Overload (%)	FCITC (MW)
N/A	N/A				

Summer Peak

Monitored Element	Contingency	DF (%)	Rating (MVA)	Overload (%)	FCITC (MW)
N/A	N/A				

*Constraints reported in the Feasibility Study have a distribution factor above 5%. N/A indicates no constraints have been found based on the scope of the Feasibility Study.
