Notice of Cancellation of Service Agreement No. 6328, Queue No. AG2-399

Dear Secretary Bose:

PJM Interconnection, L.L.C. (“PJM”) hereby submits to the Federal Energy Regulatory Commission (“Commission”) this notice of cancellation of the Wholesale Market Participation Agreement (“WMPA”) among PJM, Penn State Solar LLC (“Penn State Solar”), and West Penn Power Company (“WPP”), designated as Service Agreement No. 6328 and accepted by the Commission in Docket No. ER22-919-000 (“Penn State Solar WMPA”).¹ On June 13, 2023, PJM notified Penn State Solar of its breach of the Penn State Solar WMPA for failing to meet a material term or condition under the Penn State Solar WMPA. *Re: PJM Interconnection, L.L.C., Docket No. ER22-919-000
Original WMPA, SA No. 6328; Queue No. AG2-399*

Dear Secretary Bose:

Pursuant to section 205 of the Federal Power Act (“FPA”)¹ and part 35 of the regulations of the Federal Energy Regulatory Commission (“Commission”),² PJM Interconnection, L.L.C. (“PJM”) submits for filing a Wholesale Market Participation Agreement (“WMPA”) among PJM, Penn State Solar LLC (“Penn State Solar”) as Wholesale Market Participant, and West Penn Power Company (“West Penn Power”) as Transmission Owner, executed on January 19, 2022 (the “Penn State Solar WMPA”). PJM submits the Penn State Solar WMPA for filing because Wholesale Market Participant has requested interconnection of its generating facility to West Penn Power’s non-jurisdictional facilities for the purpose of engaging in Wholesale Transactions³ in the PJM markets. The WMPA, the appropriate agreement for the circumstances, is a form of agreement not presently contained in either the Tariff or any other PJM governing document. The WMPA applies only to Wholesale Transactions, and does not govern the actual physical interconnection

² 18 C.F.R. part 35.

³ Capitalized terms not defined herein have the meaning set forth in the PJM Open Access Transmission Tariff (“Tariff”).

of a generating facility to non-jurisdictional facilities. PJM requests waiver of the Commission's rules and regulations⁴ to permit an effective date of January 19, 2022 for the Penn State Solar WMPA, which is designated as Original Service Agreement No. 6328 and attached to this filing.⁵

I. BACKGROUND

A. *PJM's WMPA Process*

On February 22, 2006, the Commission issued an order⁶ which rejected two Interconnection Service Agreements filed by PJM on the basis that the interconnection of the underlying generators to non-jurisdictional distribution facilities was not, in and of itself, action regulated by the FPA.⁷ The Commission pointed out that in Order No. 2003,⁸ it determined that it does not have jurisdiction over an interconnection where an interconnection customer seeks to interconnect to a "local distribution" facility that is not used to provide transmission service under a Commission-approved open access transmission tariff at the time the interconnection request is submitted.⁹ The Commission also stated that in order to assert jurisdiction over such an interconnection, there must be a preexisting interconnection and a wholesale transaction over such facilities.¹⁰

⁴ 18 C.F.R. § 35.3(a)(2).

⁵ A copy of the Penn State Solar WMPA is included as Attachment A. Because the Penn State Solar WMPA being electronically filed with this transmittal letter contains electronic signatures and not the original signatures of the parties, a copy of the sheet containing the original signatures is included as Attachment B to this transmittal letter.

⁷ GSG Order I at PP 14-16; *see also* GSG Order II P 19 (denying rehearing and clarification and noting the FPA denies the Commission jurisdiction "over facilities used in local distribution").

¹⁰ GSG Order I at P 14 (citing Order No. 2003 at P 804); *see also* Order No. 2003-A at P 710.

PJM routinely receives Interconnection Requests from generation developers seeking to interconnect at a distribution level in order to participate in sales to the PJM markets. These include requests to interconnect to distribution facilities that, consistent with the GSG Orders and Order No. 2003, are considered non-jurisdictional. In light of the GSG Orders and Order No. 2003, PJM developed the WMPA as a contractual means to address these requests and provide a process to properly track and study these distribution-level interconnections, and facilitate the generator's participation in PJM's organized wholesale markets. WMPAs also allow PJM to establish and set forth any necessary security and metering provisions. In instances when a non-jurisdictional interconnection could affect the integrated transmission system, the WMPA process allows PJM to ensure that this contingency is studied and corrected, if necessary.

PJM developed its first WMPAs in 2006 and filed those agreements pursuant to the Commission's jurisdiction under FPA section 205 and the Commission's independent jurisdictional authority over wholesale sales of electric energy and related products in PJM's markets.¹¹ The Commission accepted those filings and has routinely accepted the numerous WMPAs PJM has filed since then.¹² The instant filing is also being submitted pursuant to such jurisdiction and authority, and establishes the terms and conditions necessary to facilitate the Wholesale Market Participant's ability to make wholesale sales into PJM markets. respectfully requests that Commission accept this WMPA, to be effective January 19, 2022, as requested.

B. Description of the Penn State Solar WMPA

The Penn State Solar WMPA facilitates participation by Wholesale Market Participant in PJM's organized wholesale markets, via wholesale sales from the 3 megawatt ("MW") Participant Facility located in Mercer Township, PA, in the West Penn Power Zone.¹³

The Penn State Solar WMPA provides that the Participant Facility shall be an Energy Resource, and Wholesale Market Participant will be permitted to sell energy into PJM's markets in an amount equal to the Participant Facility's Maximum Facility Output of 3 MW.¹⁴

Other provisions of the Penn State Solar WMPA establish general terms and conditions. These include effective date and termination provisions (section 1.1), notice provisions (section 2.0), and amendment and assignment provisions (sections 2.4. and 2.6). Section 3.0 indicates no security requirement. Section 3.1.4 specifies that Penn State Solar must enter into a two-party Interconnection Agreement with West Penn Power on or before September 30, 2022 to effectuate the Penn State Solar WMPA. The Schedules to the Penn State Solar WMPA include a Single-Line Diagram (Schedule A), List of Metering Equipment (Schedule B), and Wholesale Market Participant's Agreement to Conform with IRS Safe Harbor Provisions for Non-Taxable Status (Schedule E). Schedules C (List of Local/Network Upgrades), D (Applicable Technical Requirements and Standards), and F (Schedule of Non-Standard Terms & Conditions) are not

¹³ See Penn State Solar WMPA, Specifications, section 1.0.

required. Each of these general terms and conditions is consistent with those contained in other WMPAs accepted by the Commission.¹⁵

II. WAIVER AND EFFECTIVE DATE

PJM requests that the Commission grant any and all waivers of the Commission's rules and regulations that are necessary for acceptance of this filing and the enclosed Penn State Solar WMPA. Consistent with the Commission's notice requirements for service agreements, 18 C.F.R. § 35.3(a)(2), PJM requests that the Commission grant an effective date for the Penn State Solar WMPA of January 19, 2022, as this filing is being submitted within 30 days of the requested effective date.

To the extent necessary, PJM also requests waiver of the Commission's 60-day prior notice requirement, 18 C.F.R. § 35.3(a)(1), to allow this effective date. Waiver is appropriate because this effective date is consistent with the intent of the parties, as set forth in section 1.1 of the Penn State Solar WMPA. Further, the requested waiver is limited in scope and will result in no harm to third parties. The Commission has allowed waivers of its prior notice requirements when the filing is uncontested and does not change rates,¹⁶ and for other filings involving WMPAs.¹⁷

III. DOCUMENTS ENCLOSED

In addition to this transmittal letter, PJM encloses the following:

¹⁷ See *supra* n. 12. If the Commission does not allow an effective date of January 19, 2022, PJM requests that the Commission grant the earliest effective date possible, and no later than January 29, 2022, one day after this filing. The Commission has allowed jurisdictional agreements to become effective one day after filing. See *Palo Duro Wind Interconnection Servs., LLC*, 149 FERC ¶ 61,205, at P 9 (2014); *Midcontinent Indep.
