

Unit Specific Parameter Process Updates

Tom Hauske
Sr. Lead Engineer, Performance Compliance
Operating Committee
June 7, 2016

1. All Final status for adjustment requests for DY 2016/17 were completed and emailed by the May 15 deadline.
2. The team reviewed and provided final status for:
 - 71 Adjustment Requests Received
 - 81% (53,783 MWs)
 - 61% (268 Units)

*Replacement Capacity (not cleared as CP for DY 2016/17= 24 units or 7969 MWs). Please note: replacement capacity units and MWs are NOT included in the above final status numbers.

- ✓ The team is updating FAQs and process documentation with details and clarification based on emails and questions received
- ✓ The Unit Specific Adjustment team will begin reviewing the adjustment request process and details at upcoming Operating Committee meetings
- ✓ The Unit Specific Adjustment team will begin reviewing new unit specific adjustment requests for Capacity Performance resources for DY 2017/18
